

Health and safety –

Footlight Performance Academy

Waiting Area

Please note that students should not be left unattended in our waiting areas at any time

Students are the responsibility of Footlight Dance Academy / Born 2 Perform staff during class time only.

At all other times students are the responsibility of their parents / guardians and are not to be left unattended on these premises, waiting area or surrounding grounds unless prior arrangement with Nina Thompson Principal of Footlight Performance Academy only.

We would ask that all parents and older students to be aware of younger ones who appear to be unattended on or in the waiting areas and to immediately report such an incident to a member of staff.

From a practical point of view if your child is in a class and you feel that you are going to be late please inform a member of senior staff and we will ensure that provision is made until the child/children can be collected

We will regard any breach of our health and safety policies very seriously and your co-operation is greatly appreciated

Car Park Areas

Please ensure that younger students are chaperoned to and from your cars in a safe manner.

And do not allow students or their siblings to play in the car park or surrounding areas unattended.
